kushpandit68775@gmail.com ✧ linkedin.com/in/kush-pandit ✧ github.com/kushdeveloper68

OBJECTIVE

Aspiring Full-Stack Web Developer passionate about building scalable, user-friendly web applications. Skilled in frontend and backend development, with hands-on experience in REST APIs, databases, and responsive UI design. Currently pursuing a Diploma in Computer Engineering, aiming to grow through real-world projects and freelance experience.

EDUCATION

Diploma in Computer Engineering, Bhuj Polytechnic College 2025 – 2028
Currently in 1st Semester

Cambridge English School, Gandhidham Completed 2025
10th Grade 85.64

SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Vite, Figma
Backend	Node.js, Express.js, REST APIs, JSON, Postman
Database	MongoDB, SQL (basic)
Tools	Git, GitHub, GCP, Kali Linux
Programming	C Language
Soft Skills	Teamwork, Problem Solving, Time Management, Leadership

EXPERIENCE

Full Stack Web Developer — CodeAlpha (Internship) Nov 10 2025 – Dec 10 2025
Remote

- Developed a fully functional E-Commerce website using React, Node.js, Express, and MongoDB.
- Built a real-time live chatting application using WebSockets.
- Learned real-world development workflows including debugging, version control, and deployment.

MERN Stack Developer — Codec Technologies India (Internship) Nov 7 2025 – Dec 7 2025
Remote

- Collaborated on MERN stack projects involving authentication, secure APIs, and database integration.
- Improved backend structuring, modular coding, and performance optimization.
- Worked with a remote developer team to solve real-world software challenges.

Freelance Web Developer Jan 2024 – Present
Remote

- Built and deployed responsive websites for clients using React.js and Node.js.
- Managed hosting, domains, deployment, and MongoDB database setup.
- Communicated with clients to understand requirements and deliver high-quality solutions.

PROJECTS

Worker Manager — Full-stack worker management system with authentication, attendance tracking, salary records, and CRUD operations using React, Node.js, MongoDB, and JWT.

E-Commerce Website — Built a complete shopping platform with product listing, cart system, user authentication, API integration, and responsive UI using MERN stack.

Live Chat Application — Real-time chat app with user login, instant messaging, and WebSocket-based communication using Node.js, Express, and Socket.io.

IP Tracker — Location-based IP tracking website using ipinfo.io API with longitude/latitude mapping and clean UI.

Attendance-Home — Automated attendance system with QR code verification and IP validation for teachers and students.

GitHub Explorer — React-based tool to search GitHub users, explore repos, and view profile analytics using GitHub API.

EXTRA-CURRICULAR ACTIVITIES

- Create and share coding tutorials, reels, and project breakdowns on Instagram to help beginners learn JavaScript and web development.
- Explore cybersecurity tools on Kali Linux and experiment with ethical hacking techniques.

LEADERSHIP

- Led small freelance teams for client projects, managing design-to-deployment workflows.
- Collaborated with college peers on group coding challenges and team-based project building.
