OBJECTIVE

Aspiring **Full-Stack Web Developer** passionate about building scalable, user-friendly web applications. Skilled in both **frontend and backend development**, with hands-on experience in REST APIs, databases, and responsive UI design. Currently pursuing a Diploma in Computer Engineering, aiming to grow through real-world projects and freelance experience.

EDUCATION

Diploma in Computer Engineering, Bhuj Polytechnic College 2025 – 2028
Currently in 1st Semester

Cambridge English School, Gandhidham Completed 2025
10th Grade

SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Vite, Figma
Backend	Node.js, Express.js, REST APIs, JSON, Postman
Database	MongoDB, SQL (basic)
Tools	Git & GitHub, GCP, Kali Linux
Programming	C Language
Soft Skills	Teamwork, Problem-Solving, Time Management, Leadership

PROJECTS

Worker Manager – A full-stack web app to manage workers' attendance, payments, and daily records with authentication and CRUD operations using React, Node.js, MongoDB, and JWT.

IP Tracker – A location tracking web app that fetches user IP details, maps longitude/latitude, and visualizes data using ipinfo.io API.

Attendance-Home – Automated attendance system for teachers and students with QR code verification and IP validation.

GitHub Explorer – React-based app to search GitHub users, view repositories, and explore profiles through GitHub API.

Weather App – Real-time weather forecasting using OpenWeather API and responsive UI built with React and Tailwind.

EXPERIENCE

Freelance Web Developer Jan 2024 – Present
Remote

- Delivered dynamic and responsive websites for small clients using React and Node.js.
- Worked closely with clients to understand requirements and deploy web solutions.
- Gained experience with hosting, domain setup, and database management.

Hackathon Participant Oct 2025
Vikash Saptah SSIP Hackathon, Gujarat

- Built a project prototype within 36 hours with a multidisciplinary team.
- Focused on backend integration and database optimization under real-time constraints.

EXTRA-CURRICULAR ACTIVITIES

- Create and share coding tutorials, reels, and project breakdowns on Instagram to help beginners learn JavaScript and web development.
- Explore cybersecurity tools on Kali Linux and experiment with ethical hacking techniques.

LEADERSHIP

- Led small freelance teams for client projects, managing design-to-deployment workflows.
- Collaborated with college peers on group coding challenges and project building.
